Microsoft Bluetooth Stack Driver	Supported
BTW 4.0.1	Supported in notebooks only (inbuilt driver)

Downloading Mobile Phone PC Tools

1. Download the Mobile Phone PC Tools installer from the URL http://www.sonimtech.com/support_pctools.php. Select the appropriate phone model to download Mobile Phone PC Tools.
2. Click **Accept** to accept the terms of the disclaimer and to continue downloading.
3. Select the destination folder in your computer to save the zipped file.

Installing Mobile Phone PC Tools

There are two modes of installing Mobile Phone PC Tools application on your computer.

- ♦ [Installing Mobile Phone PC Tools Application](#)
- ♦ [Upgrading an Existing Mobile Phone PC Tools Application](#)

Installing Mobile Phone PC Tools Application

1. Navigate to your destination folder and click the **Autorun.exe** file.
2. Click **Install Mobile Phone PC Tools** to start the installation.
3. Select the language for the installation and click **Next**.
4. Click **Next** to continue.
5. Check **I accept the terms of the license agreement**. Click **Next** to continue.
6. Select the destination folder to install Mobile Phone PC Tools. The default destination folder is **C:\Program Files\Mobile Phone PC Tools**. Click **Next** to continue.
7. Enter the destination folder name and click **Next** to continue.
8. Click **Install** to begin the installation process.
9. The installation setup progress is displayed.
10. As the driver is not a Windows certified driver, click **Continue Anyway** to continue installation.
11. Select the suitable restart option and click **Finish** to complete the installation process.

The window for uncertified Windows driver may come up multiple times. Click **Continue Anyway** each time to finish the installation successfully.

Upgrading an Existing Mobile Phone PC Tools Application

An existing version of Mobile Phone PC Tools application can be upgraded to a higher version. Install the new version of Mobile Phone PC Tools application.

A screen appears indicating whether to remove the old Mobile Phone PC Tools application and all its features. Click **Yes** to upgrade to a higher version of Mobile Phone PC Tools application. The system asks for restart.

Follow the steps in [Installing Mobile Phone PC Tools Application](#) to continue the installation process.

Connecting the XP3.10 Phone to the Computer

Click the **Mobile Phone PCTools** icon on the desktop of your computer. Unless the phone is connected, all the menus except **Interface Setup** is disabled.

There are two ways to connect an XP3.10 phone to the Mobile Phone PC Tools application.

1. [Using USB Cable](#)
2. [Using Bluetooth](#)

Using USB Cable

1. Connect the XP3.10 phone to the USB port of the computer using a USB cable.
2. In the Mobile Phone PC Tools screen, click **Interface Setup**.
3. Select the radio button against **USB cable** and select the **Port** from the drop down list. Click **OK**.
 - ◆ If the phone is connected to Mobile Phone PC Tools for the first time using USB cable, a screen appears indicating that the system has detected a new hardware. To install the software for the hardware, select **Yes, this time only** and click Next.
 - ◆ A screen appears. Select **Install the software automatically (recommended)** and click Next.
 - ◆ The installation begins. During this process, a screen appears indicating that the software has not passed Windows logo testing. Click **Continue Anyway** to continue installation.
 - ◆ After installation is complete, a message appears in the lower right side of your computer screen indicating that the hardware has been installed and is ready to use.

Using Bluetooth

1. In the Mobile Phone PC Tools screen, click **Interface Setup**.
2. Select the radio button against **Bluetooth** and click **Select Mobile** to start the Bluetooth Phone Manager for pairing.
3. In the Bluetooth Phone Manager screen, click **OK**.
4. The available mobile phones are searched.
5. Select the phone model with which pairing is to be done and click the **Pair Device** icon.
6. To begin the pairing process, enter the PIN code. Click **Pair** and follow the on-screen instructions on your mobile phone.
7. Click **Set as Default Connection Handset** icon to connect to your mobile phone.
8. Click **Back** icon to return to the Interface Setup screen. Click **OK**.

For further information about synchronization between your XP3.10 Mobile Phone and your computer, refer the PC Tools Installation and User Guide.
